

Region 8
Virginia Building and Code Officials Association

presents

**Understanding Braced Walls
For Residential Construction**

Based on the 2006 Virginia Construction Code

Tuesday May 13, 2008
9:00 am – 3:30 pm

Operations Center
513 Oyster Point Road
Newport News

The instructors for this program will be Chuck Bajnai, Chesterfield County Chief of Residential Plan Review and Brian Foley, Fairfax County Chief Structural Engineer. Both instrumental in the development of the Virginia amendments to the braced wall requirements of the International Residential Code.

Objectives of the seminar include:

- Understanding the need for braced walls.
- Review of braced wall methods.
- Review of braced wall lines
- Review sample problems for exterior and interior braced wall compliance.

This seminar is intended for design professionals and contractors. **The registration fee is \$20.00.**

Registration will be accepted through Thursday, May 8, 2008 or until capacity is reached.

Space will be limited to the first 80 registered applicants.
